Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-20, drawn to compounds, compositions and methods of use of Formula II, classified in class 549/514, subclass many depending on the particular species identified.
- II. Claims 21-35, drawn to compositions and methods of use comprising 5-hydroxy-3,6,7-trimethyl-benzofuran-2-yl-phenylmethanone, classified in class 549/514, subclass 469,468.
- III. Claims 36-45, drawn to compounds, compositions and methods of use of Formula I, classified in class 549/514, subclass numerous depending on the particular species identified.

The inventions are distinct, each from the other because of the following reasons:

They each relate to subject matter of a different scope which are not the same or interchangeable which each would require a different search and examination wherein further a reference anticipating one would not necessarily render the other obvious and each group can support a separate patent. As a result, to search all these groups as outlined above in one application would present an undue burden on the examiner.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Art Unit: 1626

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Deborah C. Lambkin whose telephone number is 571-272-0698.
